

917 JUNIOR

THE CAR

The Porsche 917 Junior is a 72% scale, petrol reincarnation of the legendary Porsche 917 that won the 1970, 24hrs of Le Mans. Piloted to victory by the most successful Porsche AC works driver, Richard 'Dickie' Attwood and Hanns Herrmann.

Extensive development using 3D scans of the original Le Mans winner, chassis 917.023, ensured we were able to carbon copy every minuet detail from full scale to half scale.

SPECIFICATION

MECHANICAL:

The 917 Junior is powered by a key start, 9hp 230cc four stroke engine. Capable of reaching speeds of up to 28mph – though the speed can be restricted if desired. Paired with rack-and-pinion steering and independent spring Suspension. Braking is achieved via vented disc brakes.

INTERIOR:

Dressed with 'authentic' bare aluminium panels, the cockpit features a mini bucket seat for the young driver upholstered in leather with suede inserts. For taller drivers, the bucket seat is removable ensuring extra room. A quick-release steering wheel is fitted, as well as working headlights and a rear cooling fan, just like its full scale compadre.

BODY:

Hand crafted GRP bodywork ensuring a faithful tribute to the iconic 917 'Kurzheck' body lines. (Carbon fibre body available upon request)

DIMENSIONS:

2.60 x 1.60 x 0.80m

Suitable for small or larger drivers.

PERSONALISATION

Like any true Porsche, the purchase of a 917 Junior means an abundance of personalisation options. When it comes to configuring the perfect specification, You will be able to choose from over 60 combinations across the 917 Junior range, with a abundance of additional extras and accessories that can be selected to create your dream car.
